

TAG-Knowledge signs MoU with IEEE

MENAFN Press - 05/07/2009

(MENAFN Press) The MOU recognizes the commitment of TAG-Knowledge in providing the best training in various fields to IEEE members

Talal Abu-Ghazaleh Knowledge Society (TAG-Knowledge) has recently signed a memorandum of understanding (MoU) with the IEEE, the world's leading professional association for the advancement of technology in Amman.

The MOU recognizes the commitment of TAG-Knowledge in providing the best training in various fields to IEEE members.

"We are really excited to start providing specialized training courses to IEEE members in administrative, financial and technical fields," Tareq Hammad, Tag-Knowledge executive director said.

IEEE has more than 384,500 members in more than 163 countries and focuses on encouraging students on creativity and developing their skills in computers and telecommunications, biomedical engineering, electric power and consumer electronics domains among others.

"We share the same target and work with the same audience which makes it really easy to continue on the path we have developed for ourselves in helping students develop their skills and creativity," he said.

IEEE supervisor Osama Akili, officials from Queen Rania Center for Entrepreneurship and students attended the signing ceremony.
