

First Graduation Ceremony
Talal Abu-Ghazaleh College of Business
German-Jordanian University

- A week ago, June 22, I gave the commencement speech at Shenyang Normal University (China) addressing 5000 graduates in one auditorium (more than the 28 universities of Jordan graduate in one year).
- They offered to host our own building on their campus offering us all possible incentive for TAG-Org services and TAG College programs. We accepted and agreed on the framework.

“I love Socrates but I love truth more”.

I love America so I will tell America the truth.

I know how difficult that is yet I will.

- Law exempted foreign companies from taxation on income outside US (we closed N.Y. before opening it – a shame not to ban an office in the US out of 71 offices!
- Encourage partnership (US/Arab) in the region rather than investments, contracts, donations.
- The beautiful US face (image) can only be seen as the reflection of beautiful deeds.
- If it is difficult for the US to be even – handed when Israel is involved, let other countries support the Palestinians.
- History reminds us that all liberation movements ended with liberation. The collective Arab conscience can sustain another 100 years of struggle. Listen to the Arab Conscience.
