**We have kept pace with the blessed renaissance
..... And we are still keeping our promise**

H.H. Fahad Bin Mahmood Al Said, Dr. Talal Abu-Ghazaleh and Mr. Habib Bourguiba, Jr.

Muscat Office has provided professional services to the business community and the public sector in the Sultanate of Oman since the dawn of the blessed renaissance. It has always conducted its operations with honesty, integrity and high degree of diligence and perseverance, in full compliance with and respect for the rules and principles of professionalism and responsible business.

We are especially grateful for the facilities and support provided by the competent authorities, at all levels, that enabled us to harness available expertise in favor of enterprises and businesses. As a result, Muscat Office has acquired a good reputation in all quarters and has received support and sponsorship from public officials, leaders of economic sectors and the business community.

TAGorg has kept pace in its delivery of services with the rapid development witnessed by the Sultanate in all fields. It has also taken advantage of the favorable Omani environment for investment and business, which is reflected in a set of laws and legislations promoting economic growth and development and ensuring stability and the rule of law. In addition, TAG-Org has strengthened its professional capacities to meet the increased demand resulting from the expansion in the business and the service sectors.

Since commencing operation in Oman, TAG-Org has sought to take advantage of the welcoming atmosphere to provide its professional services to all sectors, including auditing, management and financial consulting, trademarks registration, translation, legal consulting, administrative capacity building, development of professional competencies as well as other services rendered to economic and development institutions and in the educational field.

Talal Abu Ghazaleh and Co. International is approved and registered with the Capital Market Authority for auditing public shareholding companies and banks operating in Oman. TAG-Org, at all times, abides by the applicable laws, regulations and instructions.

This has been reflected in our well-respected relationship with companies, institutions and government agencies over the past decades and throughout the blessed renaissance led by Sultan Qaboos Bin Said.

TAG-Org has participated in numerous conferences held by the Omani ministries and institutions and has been in the fore front in contributing to them. This has been evident from the participation of HE Dr. Talal Abu Ghazaleh in most seminars and conferences held in the past years, such as those of the Central Bank, the Ministry of Commerce and Industry and the Information Technology Authority.

TAG-Org has realized the urgency of the need to contribute to capacity building in the country. It has therefore established the Arab Omani Training Institute. The Institute has trained, qualified and graduated thousands of Omani citizens in all professional fields and specializations in management, accounting, IT and languages.

It has also gained the trust of the Information Technology Authority by winning the pioneer project to train the public employees through the Talal Abu Ghazaleh Cambridge IT Skills Program. In addition, the

Institute undertakes an ambitious program for the employees of both public and private sectors to learn computer skills, including the Cambridge IT Skills Diploma.

One of the objectives of the Institute is to train and qualifying Omani accountants to obtain the “International Arab Certified Public Accountant (IACPA)” Certificate awarded by the International Arab Society Certified Accountants “IASCA”.

The Arab Omani Training Institute prides itself on providing high-quality training services that are beneficial to the community. Such services include the private voluntary project in Moqniate town for training women as well as the training project for individuals with special needs. Trainers were trained to qualify Omani individuals with special needs in all governorates of the Sultanate. In addition, citizens benefiting from social development were also trained.
