during the panel discussion organized by the United Arab Media Council (UAMC) with HE Dr. Talal Abu-Ghazaleh entitled “The Global Economic Crisis 2020: A Crisis or An Opportunity?”

The panel discussion was attended by a wide spectrum of media professionals, economists, academics and journalists in addition to representatives of the public and private sectors and international and development institutions.

During the panel discussion Dr. Abu-Ghazaleh said “I have been sounding the alarm of a major economic crisis that may hit globally by the year 2020. Contrary to some expert analyses, I have good reason to believe that the new crisis is going to be much more devastating than the previous one that took place during 2008, which was described by Ben Bernanke, the chair of the Federal Reserve (Fed) at the time, as “the worst financial crisis in global history”. Most likely, and like the previous one, this crisis will start in the United States.”

Moreover, the participants stressed the importance of such sessions that would serve opinion leaders and decision makers, especially with regard to economic analysis based on scientific foundations and manifestations on the ground.

It is worth noting that Talal Abu-Ghazaleh Translation, Distribution and Publishing (TAG-Translate) company is one of Talal Abu-Ghazaleh Global (TAG.Global)’s companies. TAG-Translate is considered as one of the largest companies in the field of providing translation services locally and internationally, as it provides its customers with services that are characterized by the highest quality standards.
