Abu-Ghazaleh Receives Palestinian and Tunisian Military Attachés, Tackles Knowledge and Technology in the Military Field

Accrediting Al-Rafeeq for Development, consultation and Training Center in Sana'a to grant Talal Abu-Ghazaleh International Diploma in IT Skills (TAG-DIT)

Yemen - Talal Abu-Ghazaleh E-Training accredited Al-Rafeeq for Development, Consultation and Training Center in Sana'a for training and examination services for granting Talal Abu-Ghazaleh International Diploma in IT Skills (TAG-DIT).

This unique diploma offers an opportunity to apply for two levels (Foundation and Advanced). The "Foundation level" is developed for candidates who aspire to develop practical IT skills, such as competently using software word processing, file management and Internet related skills. Candidates are awarded the certificate of Talal Abu-Ghazaleh International Diploma in IT Skills once they have successfully passed the appropriate exam. As for the "Advanced level", it builds on the basic level training by providing advanced skills and training ensuring that candidates possess the specialized and advanced IT skills needed by employers.

The added value of TAG-DIT Diploma:

1. **Bilingual:** The examination may be provided either in Arabic or in English.
2. **Credibility:** Correcting examinations is done electronically without human intervention.
3. **Speed:** On the trainee screen, examination results are presented immediately after the exam is over.
4. **Flexibility:** The option of applying to the examinations is available at any time and at any of the approved centers.
5. **Gradual promotion:** The certificate shall be awarded in accordance with the passed modules, starting from the first module and so on.
6. Possibility of applying for one exam out of the seven.
7. The certificate is issued by Talal Abu-Ghazaleh E-Training Center.
8. There is no registration fee.

Talal Abu-Ghazaleh E-Training Center has completed a number of training courses in Advanced Microsoft Excel for different entities in Yemen

Sana'a - In January 2019, Talal Abu-Ghazaleh E-Training Center has completed three training courses in Advanced Microsoft Excel for different entities in Yemen.

The first training course was held for the staff of the Danish Refugee Council (DRC) in Yemen in which 16 employees participated. The training course was organized at the premises of the DRC. The second training course was held for the graduates of the Lebanese International University (the first group) in which 28 students participated. Meanwhile, the third training course was held at the premises of Talal Abu-Ghazaleh E-Training Center in which 15 young ladies and gentlemen from different organizations participated.

The participants in the three training courses expressed their satisfaction with the information provided by trainers, particularly, as it fulfilled most of their training needs and was adapted to match their professional requirements. The participants also stressed their permanent keenness to benefit from the training services provided by Talal Abu-Ghazaleh E-Training Center.

Abu-Ghazaleh Receives Palestinian and Tunisian Military Attachés, Tackles Knowledge and Technology in the Military Field

AMMAN - HE Dr. Talal Abu-Ghazaleh received in his office Colonel Jawad Math'her, Military Attaché at the State of Palestine Embassy in Amman and Brigadier General Al Ameen Omar, Military Attaché at the Tunisian Embassy in Amman with the aim of exchanging views on many issues related to enhancing the effective role of the armed forces in the creation of knowledge and technology.

During the meeting, both guests stressed the importance of supporting and encouraging creativity and innovation as well as providing the ideal conditions and techniques necessary in various military fields and in all units of the armed forces.

It is worth noting that Dr. Abu-Ghazaleh chairs the Joint Board for Military Development and Innovation in Amman, an entity established in cooperation with the Jordan Armed Forces - Arab Army,

in light of the military's innovative capacity and the significant role of the Armed Forces in the knowledge and technical creativity fields which represent an important environment for inventions.

The establishment of the Council comes in line with the Royal vision on the importance of adapting to technological advancement; therefore, the vision of the Council focuses on introducing the best tools for enhancing the capacities of the Jordan Armed Forces- Arab Army for its transformation into a smart army using high-tech applications. Its main mission is to find appropriate solutions to challenges faced by the Armed Forces and adopting modern technologies that will play a significant role in development and modernization.

The Council represents a model partnership between the military sector and the private sector with the aim of encouraging and

developing military researches and set the plans, recommendations and prepare studies to create creative environment based on the modern and the latest global environment which hosts experts of the Armed Forces.

The Palestinian and Tunisian Military Attachés expressed their appreciation for the meeting and the beneficial discussions and recommendations.

As a Jordanian and an Arab, Dr.

Abu-Ghazaleh expressed his pride in welcoming the Palestinian and Tunisian Attachés stressing that Tunisia has been like a second home for him for more than half a century.

At the end of the meeting, Dr. Abu-Ghazaleh received honorary shields from the guests. At the end he expressed his readiness to provide whatever is needed to the Arab countries along the same lines as he is providing to Jordan, as he considers himself an Arab before anything else.
