TAG-ITI to Provide Pella Pharmaceuticals (Derma) With Digital Marketing and Web Development Services

AMMAN – Talal Abu-Ghazaleh Information Technology International (TAG-ITI) has been awarded a new contract by The Jordanian Action for the Development of Enterprises (JADE) to provide Pella Pharmaceuticals (Derma) with variety of ICT services that include; Digital Marketing, Website Design and CRM Development.

The selection of Talal Abu-Ghazaleh Information Technology International (TAG-ITI) was based on TAG-ITI unique experience in the field of information technology in general, and in digital marketing and web design and development in particular.

Talal Abu-Ghazaleh Information Technology International (TAG-ITI) shall develop and design the systems in a manner that reflects the company's vision, approach, and objectives. In addition, TAG-ITI shall provide PELLA with technical support, maintenance services, and technical training for users.

About TAG-ITI

TAG-ITI is one of the leading firms in web solutions in the Middle East, with fifteen years' experience and extensive capability in building and designing websites and interactive pages.

TAG-ITI creates innovative ideas and utilize the latest technologies and tools to provide potential clients with reliable website designing, development as well as multiple ICT services. It is characterized by its high standards and quality of varied ICT service offerings and by its focus on promoting a

culture of innovative and high performance service delivery.

Our strong professional service orientation focuses on specific regional needs, intimate knowledge of technology as well as social and business cultures, all of which enable us to meet our clients' needs through tailoring our ICT services to their relevant business environments.

About Pella

Pella Pharmaceuticals is a Jordanian company focused on producing high quality topical Pharmaceuticals, Cosmeceuticals and cosmetics products, using the best quality raw material from reliable certified sources, while implementing the GMP standards, by highly qualified staff.

In addition to its high quality products, Pella believes that the duty of the company is to cooperate with the medical body, in the local, regional and international markets, to deliver the best care to their patients, using innovative and effective techniques to achieve this goal. While enacting a positive impact on the community that hosts it; by making efforts to increase health awareness, contributing to sustainable development, or working to decrease any negative impact on the local environment.

Gendarmerie Forces and Talal Abu-Ghazaleh Organization Discuss Means of Cooperation

AMMAN - Talal Abu-Ghazaleh Organization (TAG-Org) Cloud Computing and Infrastructure team met their counterparts at the Information and Communication Technology Department of The General Directorate of The Gendarmerie to discuss means of development in the fields of infrastructure and ICT systems of the Directorate.

The meeting came within the framework of cooperation set up during HE Dr. Talal Abu-Ghazaleh's visit to the Directorate, and his recent meeting with the General Director of Gendarmerie Major General Hussein Al-Hawatmeh where the two parties discussed several topics related to technical knowledge capacity building and Human Resources development.

Furthermore, the two parties agreed on providing consultancy studies in the Cloud Computing field relating to the development of the current infrastructure and providing training courses for ICT staff at the Gendarmerie Force in various fields such as Programming Languages, Mobile Apps, and Information Security among others.

Moreover, the two parties discussed the potential for establishing knowledge stations

at the Directorate's various units to offer training courses in different domains and to enable Gendarmerie staff to use TAG-Org's educational platforms and services in the field of System and Website Audit and Development.

At the end of the meeting, the Gendarmerie ICT team awarded TAG-Org an honorary shield in recognition of its efforts and technical and training cooperation.

Lebanon's National Defense Minister Receives Abu-Ghazaleh

BEIRUT - Lebanon's National Defense Minister HE Yacoub Riyad Al-Sarraf received HE Dr. Talal Abu-Ghazaleh in his office.

During the meeting the two parties discussed several issues particularly innovation in military industry on the occasion of Dr. Abu-Ghazaleh's participation as a keynote speaker at C4ISR (Command, Control, Communications, Computers, Intelligence, Surveillance and Reconnaissance) Summit to be held in Kuwait September 24, 2018.

In the said Kuwait Summit, Dr. Abu-Ghazaleh will underline ICT based military innovations.

For his part, Minister Al-Sarraf briefed Dr. Abu-Ghazaleh on the training programs presented by the Ministry of Defense to the staff of the Armed Forces and the unprecedented development achieved in the programs of the

military academy in accordance with the latest advancements at a global level.

Dr. Abu-Ghazaleh expressed his admiration of the existing programs and offered cooperation in the fields of ICT based training, language fluency and encouragement of innovation similar to current cooperation with other Arab countries.

Dr. Abu-Ghazaleh will take part in the Kuwait Summit in a special discussion panel session with US military leaders on how best to equip armed forces to establish joint cyber defense operations. The two parties also discussed this significant topic which will be one of the programs offered at Talal Abu-Ghazaleh University College for Innovation (TAGUCI) in Jordan.
