

Talal Abu-Ghazaleh University College for Innovation Offers 100% Scholarships For Refugees and 50% for Arab Students

Amman 23-Jan-2019

HE Dr. Talal Abu-Ghazaleh announced grants of full scholarships for MBA students at Talal Abu-Ghazaleh University College for Innovation (TAGUCI) for refugees at Syrian and Palestinian camps in Jordan and Lebanon, and 50% scholarships for students who meet MBA requirements in Jordan and the Arab countries.

The scholarships are part of the Corporate Social Responsibility guided by Dr. Abu-Ghazaleh for the service of the community and youth capacity development through Talal Abu-Ghazaleh Foundation (TAG-Foundation).

Dr. Abu-Ghazaleh stressed the significance of the scholarships in supporting youth, particularly refugees, to overcome financial obstacles by granting them the opportunity to access high-level education and knowledge, pointing out that education is their only means towards improving their conditions and developing their skills.

Talal Abu-Ghazaleh Foundation was established as a non-profit company by Talal Abu-Ghazaleh Organization (TAG-Org) to promote sustainable development with a focus on social and economic development initiatives to enhance the capabilities of individuals, groups, institutions and associations around the world.

Dr. Abu-Ghazaleh stated that TAGUCI, a University College specializing in business and information technology with the aim to provide the appropriate environment for creativity and innovation, is

Abu-Ghazaleh University College for Innovation and Queen’s University Launch “Global Innovation Challenge” Program

Amman 06-Jan-2019

Talal Abu-Ghazaleh University College for Innovation (TAGUCI) announced the launch of the “Global Innovation Challenge” program in cooperation with Queen’s University. The project is based on the “Design Thinking” method in solving problems and developing practical creative solutions.

The program includes the formation of a joint ten-student workgroup representing the two educational institutions, to be divided into two teams with the aim to enhance values and spirits of participation through mutual visits between the two universities.

During the program, topics about Pioneering Leadership and other fields that need development to achieve high levels of creativity will be tackled. Moreover, students will sit for exams that will assess their leadership skills and the impact of these skills on their daily life.

At the end of the program, students will be confidently able to use the ‘Design Thinking’ methodology in finding solutions that will affect the local and global community and make a permanent change in people’s lives.

Abu-Ghazaleh Patronizes Graduation Ceremony of the 10th Batch of MBA Graduates of Talal Abu-Ghazaleh Graduate School of Business

Amman 07-Jan-2019

Under the patronage of HE Dr. Talal Abu-Ghazaleh, Talal Abu-Ghazaleh Graduate School of Business (TAG-SB)/German Jordanian University (GJU) celebrated the graduation of the 10th batch of Master's Degree students for the year 2018.

During the ceremony, Dr. Abu-Ghazaleh congratulated the students and welcomed them to the Talal Abu-Ghazaleh Alumni Association to stay in contact with the Organization, as they are considered to be part of the Talal Abu-Ghazaleh family.

He also expressed his admiration and pride in honoring them, although the partnership between TAG-Org and GJU has concluded, stating that TAG-Org shifted to a new path by establishing the "Talal Abu-Ghazaleh University College for Innovation (TAGUCI)" which started receiving

applications for bachelor and master's degrees in Innovative Business and Innovative Information Technology.

TAGUCI aims at providing the appropriate environment for creativity, innovation and entrepreneurship through modern learning methods offered to enable students to transform their creative ideas and innovation into marketable products.

Furthermore, Dr. Abu-Ghazaleh affirmed that the world is moving towards the Knowledge Revolution that will be driven by creativity-based Artificial Intelligence (AI), highlighting his recently published book which discusses the world's future in the Knowledge Era and the impact of AI on daily life.

During the ceremony, Randa Akram delivered

the Student Graduation Speech expressing her sincere gratitude to Dr. Abu-Ghazaleh for the great educational opportunity he offered them, affirming that Dr. Abu-Ghazaleh always believes in the ability of youth to make a difference in their own societies and at the whole world.

She also stressed that making the future relies on youth as future leaders, noting that the rebuilding

of national institutions requires promising human capabilities represented by university graduates.

At the end of the ceremony, Dr. Abu-Ghazaleh awarded certificates to graduates and honorary certificates to the top three outstanding students who obtained the highest grades as well as awarding honorary shields and TAGITOP laptops specially manufactured for TAG-Org.

Talal Abu-Ghazaleh College for Innovation and Queen's Organize “Entrepreneurial Leadership for the 21st Century” Workshop

Amman 13-Jan-2019

Talal Abu-Ghazaleh University College for Innovation (TAGUCI) in collaboration with Queen's University, organized a workshop entitled “Entrepreneurial Leadership for the 21st Century”, under the patronage of HE Dr. Talal Abu-Ghazaleh at TAG Knowledge Forum (TAG-KF).

During the workshop, Dr. Abu-Ghazaleh underlined the need for changing the education system with the aim of graduating inventors rather than job seekers, adding that “learning is a continuous process that leads to creativity”.

Furthermore, Dr. Abu-Ghazaleh expressed his pride in the partnership between TAG-Org and Queen's University, pointing out that his organization will offer all its potentials to enhance this distinguished cooperation model between the two educational institutions.

TAGUCI and Queen's University recently announced the launch of the “Global Innovation Challenge” project which adopts the “Design Thinking” methodology as a creative tool in solving problems, designing innovative and practical solutions.

Furthermore, Dean of TAGUCI, Dr. Muntaha Bani Hani, briefed the attendees on TAGUCI's vision and mission and what differentiates it from other educational institutions.

TAGUCI is a University College specialized in business and information technology. It focuses on providing the appropriate environment for creativity and innovation through modern learning methods while granting students the potential to transform their ideas and inventions into marketable products.

For her part, the Dean of the Graduate School of Queen's University, Prof. Margaret Topping tackled the concept of Innovative Leadership encouraging the attendees to participate in some activities that make it easier for them to understand the Design Thinking methodology's various phases.

It is noteworthy that TAGUCI has recently announced that it started receiving applications for the second semester of the academic year 2018/2019 for MBA program tracks including Innovative Leadership, Entrepreneurship, Human Resources Management, Digital Marketing and Data Analytics.

Media Unity Council Hosts Abu-Ghazaleh to Discuss the 2020 Global Economic Crisis

Amman 31-Jan-2019

The United Arab Media Council (UAMC) hosted HE Dr. Talal Abu-Ghazaleh in a panel discussion entitled “The Global Economic Crisis 2020: A Crisis or Opportunity?” with the participation of a wide spectrum of economists, academics and journalists in addition to representatives of the private sector and international and development institutions.

At the beginning of the session, Mr. Haitham Ali Yousef, UAMC Secretary General, welcomed the guests and participants, pointing out that the session is a part of the future activities of the Arab Council for Media announced last year and

officially acknowledged by the League of The Arab States.

Mr. Yousef stated that the open discussion with Dr. Abu-Ghazaleh is a great and an important opportunity for economists and media specialists in the economic field for getting in-depth knowledge and information from one leading global prominent economic experts.

“We, at the Council, support and endorse the content of Dr. Abu-Ghazaleh’s open letter to the Prime Minister on the necessity for limiting public holidays to enhance productivity. Dr.

Abu-Ghazaleh expressed concern about national economy especially while we are approaching a global economic crisis which requires additional hard work to eliminate its negative impact,” Yousef noted.

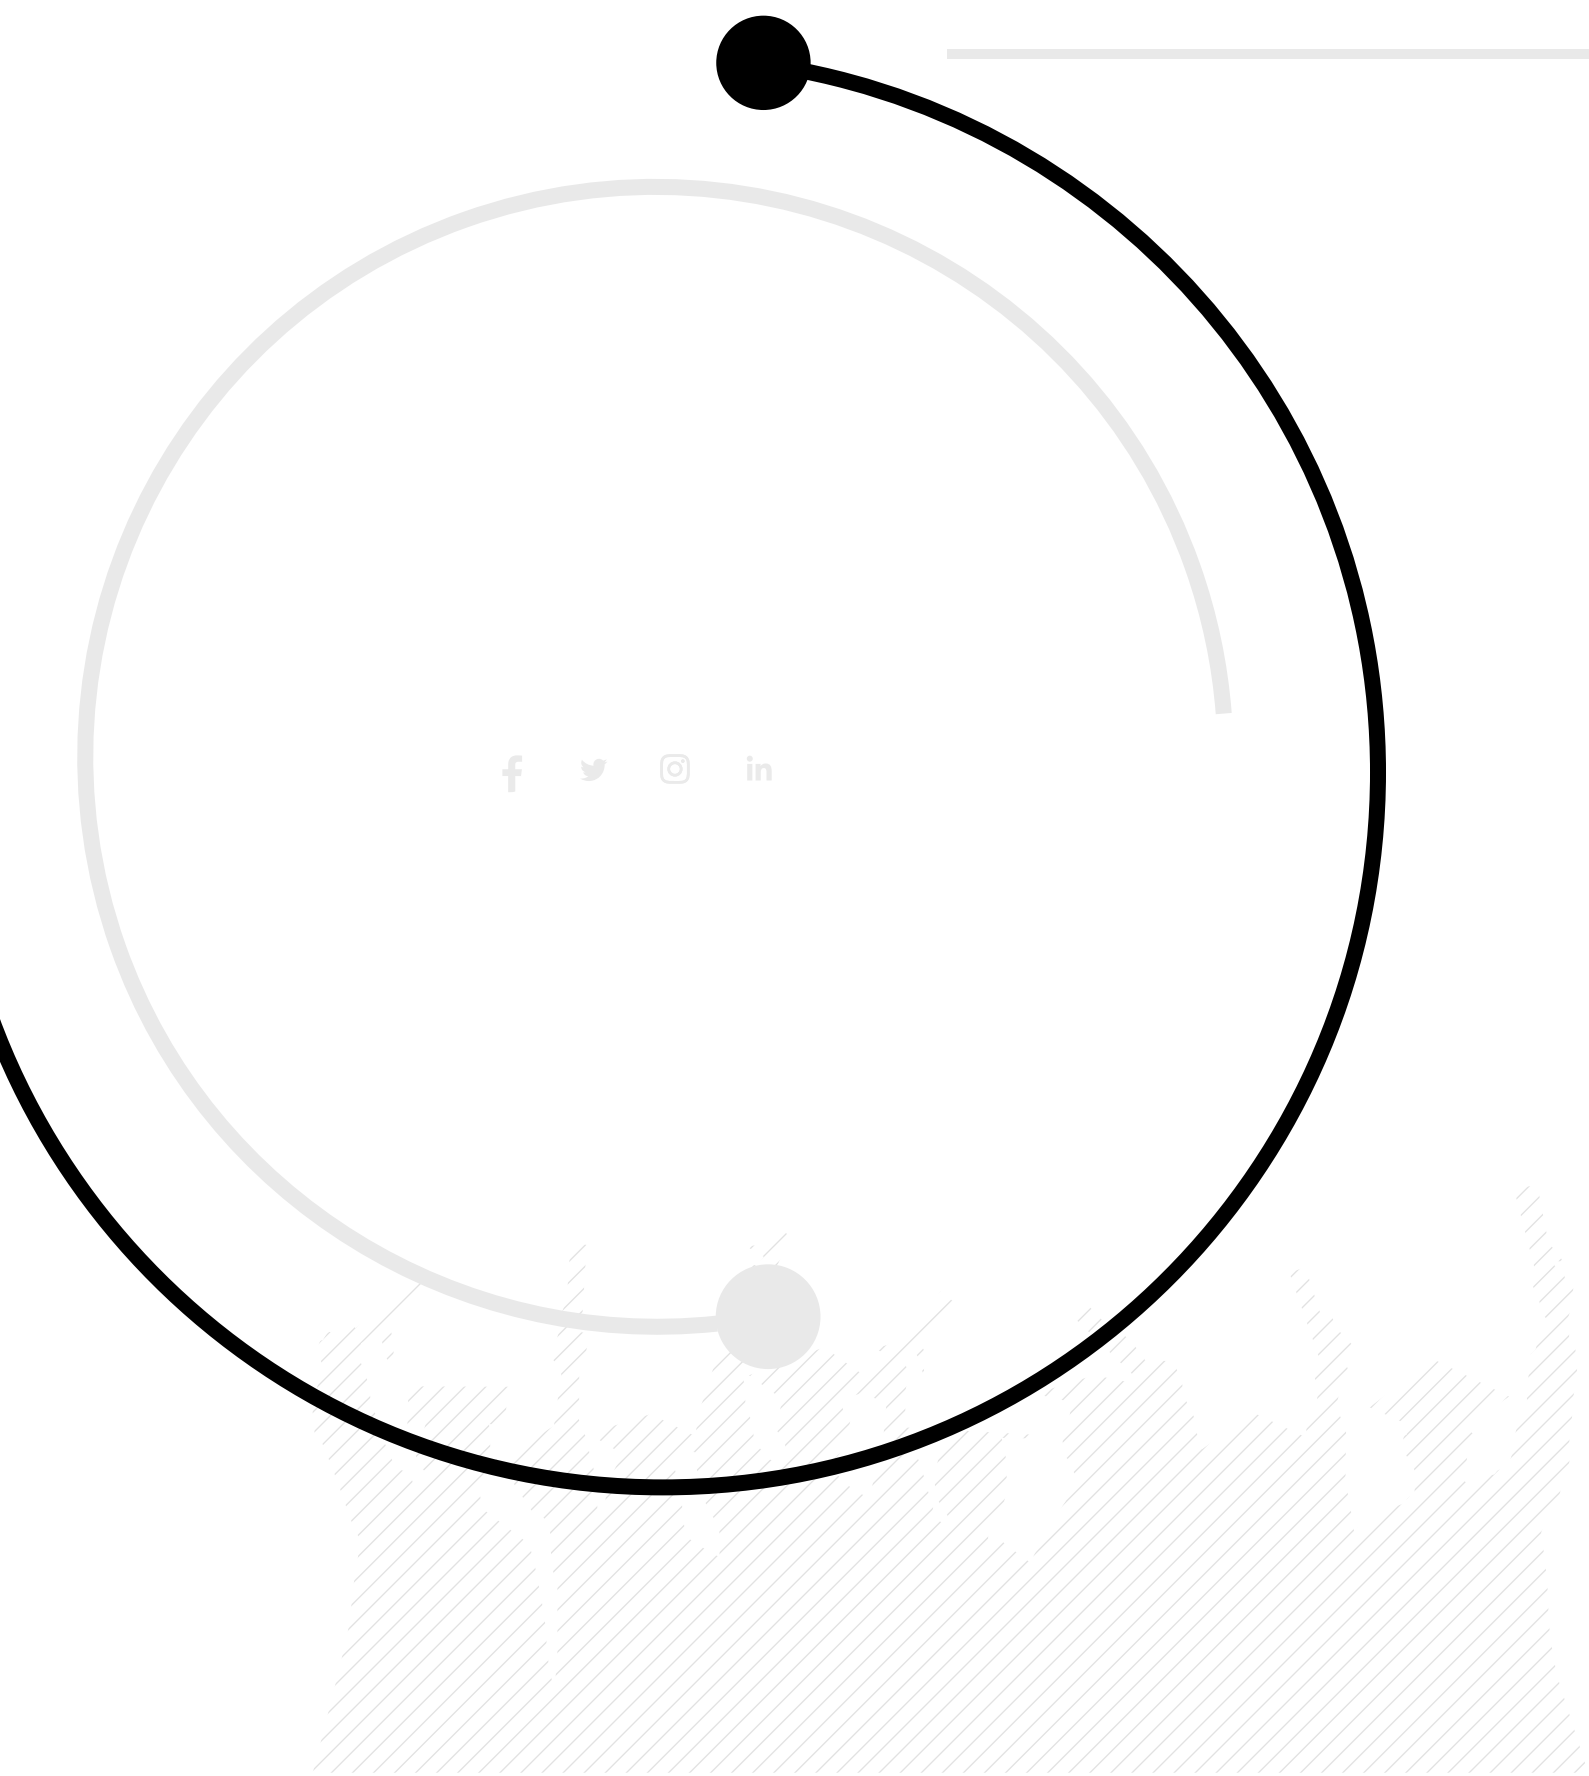

Furthermore, Dr. Salim Sharif, UAMC Chairman, affirmed the importance of the information highlighted at the session which he considered a ‘positive’ alarm bell for the government to take the required precautionary measures.

“Dr. Talal Abu-Ghazaleh, the well-known self-made economist, has based his expectations on his decade-long economic expertise and his study and observations of international and regional economic and political conditions. We at the Council, support Dr. Abu-Ghazaleh and any other sincere Arab leader who is always

concerned about the Arab world politically and economically,” Sharif added.

In an article written by Dr. Abu-Ghazaleh and published last month by media outlets at a wide scale, he calls on everyone to be prepared to a major economic crisis that may hit globally by the year 2020.

“I have been sounding the alarm of a major economic crisis that may hit globally by the year 2020. Contrary to some expert analyses, I have good reason to believe that the new crisis is going to be much more devastating than the 2008 one, which was described by Ben Bernanke, the chair of the Federal Reserve (Fed) at the time, as “the worst financial crisis in global history”. Most likely, and like the previous one, this crisis will start in the United States,” Abu-Ghazaleh said.
