‘Abu-Ghazaleh Global’ Announces the Relaunch of its ‘Computer Refurbishment’ Project

Jerash Governor Honors Abu-Ghazaleh for Receiving the Oscar “Most Prominent Arab Scientific Personality of 2020” Education Award

‘Abu-Ghazaleh for Technology’ Releases its New “TAGITOP EDU” Laptop for Educational Purposes

‘Abu-Ghazaleh Global’ Announces the Relaunch of its ‘Computer Refurbishment’ Project

AMMAN - The Talal Abu-Ghazaleh Computer Refurbishment Program (TAG-CR), a member of Talal Abu-Ghazaleh Global (TAG.Global), -which was interrupted by the corona crisis- has announced the relaunch of the non-profit project. HE Dr. Talal Abu-Ghazaleh, founder and chairman of TAG.Global, was entrusted with this undertaking by the United Nations.

The project goal is to refurbish old computers and to donate them to institutions and associations who could not afford new ones for their work.

TAG-CR Director, Mr. Ala’a Al-Tall, pointed out that TAG.Global, has been working on this project since 2008, stating that the project aims at collecting old and unusable computers from donors to provide refurbished PCs to the underprivileged schools, foundations and charities.

“The project is the outcome of cooperation between government and private sectors along with TAG.Global with the aim to enhance corporate social responsibility commitment towards the underprivileged areas,” Al-Tall said.

He further noted that the project crystallizes the vision of Dr. Abu-Ghazaleh that every individual should own a personal computer to build and enhance their personal capacities and skills.

It should be noted that the government supported the project and the Prime Minister issued a circular to all government ministries and entities asking them to donate their old and unusable PCs for the benefit of the project – an initiative by the UN Secretariat – and most of the ministries and government agencies and institutions responded favorably.

Meanwhile, Al-Tall called on all government, private and diplomatic entities that wish to donate their devices to communicate with TAG.Global for that purpose. He also invited all those who wish to benefit from the project to contact TAG-CR, affirming that the TAG.Global is ready to provide different eligible associations and entities with the refurbished computer.

He concluded that the project aims to provide support to the youth by availing the required knowledge tools, considering that the future is based on advanced information and communication technologies.

Jerash Governor Honors Abu-Ghazaleh for Receiving the Oscar “Most Prominent Arab Scientific Personality of 2020” Education Award

JERASH: To honor HE Dr. Talal Abu-Ghazaleh, founder and chairman of Talal Abu-Ghazaleh Global (TAG.Global), the Jerash Governorate has organized a ceremony to celebrate his receiving of the OSCAR “The Most Prominent Arab Scientific Personality of the Year 2020” Education Award.

The ceremony was held under the patronage of Jerash Governor, Dr. Firas Abu Qaoud, in the presence of Mayor of Jerash Greater Municipality, Dr. Ali Gogazeh, and Head of Irbid Police Department, Dr. Nasser Al-Da’jah, in addition to a host of Jerash governorate’s dignitaries and high-ranking personalities.

Dr. Abu-Ghazaleh’s success in winning the OSCAR Education Award was declared following a six-day survey conducted by the Human Development Training Center (HDTTC) in Dubai, the UAE, where

Dr. Abu-Ghazaleh received the highest number of votes from 70 countries.

On the sidelines of the ceremony, trainees who participated in the “Training of Trainers” course held at Talal Abu-Ghazaleh Knowledge Station in Jerash Governorate were graduated.

During the gathering, Abu Qaoud commended the efforts exerted by Talal Abu-Ghazaleh Knowledge Society (TAG-KS), particularly in making the training courses a success, as well as the contributions offered by TAG.Global that aim at developing the youth capacities to become more qualified and competent to meet labor market needs, calling on all graduates to carry on the development of their capabilities and skills.

For his part, Dr. Abu-Ghazaleh expressed his deep gratitude and pride for the

honoring ceremony organized by Jerash governorate, affirming the significance of the strategic partnership between TAG.Global and local community in all governorates throughout the Kingdom.

He also called for further cooperation between various local community institutions to develop, train, qualify and enable young people to compete in labor market.

At the closing of the ceremony, shields were exchanged and certificates were given to graduates.

It is worth mentioning that Talal Abu-Ghazaleh Knowledge Society (TAG-KS),

a member of Talal Abu-Ghazaleh Global (TAG.Global), has been offering the local community with distinctive training courses, awareness campaigns and free-of-charge training programs in the Governorate of Jerash.

TAG-Knowledge Station is one of a chain of knowledge stations established all over the Kingdom, with the aim of providing the youth and students with advanced technological tools in the field of Information and Communication Technology to enrich their expertise and qualify them to meet local and regional labor market needs.

‘Abu-Ghazaleh for Technology’ Releases its New “TAGITOP EDU” Laptop for Educational Purposes

AMMAN – Talal Abu-Ghazaleh for Technology (TAGTech), a member of Talal Abu-Ghazaleh Global (TAG.Global), announced the release of a new edition of the 2021 educational laptop (TAGITOP EDU) distinguished by its high-level performance.

TAGITOP EDU was designed by Jordanian experts at TAGTech factories in China with Arab investment and high and improved specifications. The new device is now available at TAG.Global showrooms and at its large network of retailers in Jordan, the Arab region and worldwide.

TAGITOP EDU is characterized by its compatibility with educational needs and a high-level performance. It comes in brown color, with a 14-inch screen, full HD (1920×1080) IPS-LCD that offers high color resolution.

Additionally, the new TAGITOP EDU comes with Intel Core i3 G10 processor which means powerful overall performance. The device is also distinguished by its Integrated Intel® Graphics processor with a long-life, lithium battery of 4290 mAh.

TAGTech offers TAGITOP EDU at JD340 including tax with one-year warranty and free delivery to all governorates in the Kingdom.

It should be noted that TAGITOP EDU is the third edition of TAGTech laptop series for education purpose including (TAGITOP-UNI, TAGITOP-UNI C), all designed and produced in response to the
