Abu-Ghazaleh Launches Professional Examination System and E-evaluation Service

‘Abu-Ghazaleh University College for Innovation’ Launches Remote Learning Platform for its Students

‘Abu-Ghazaleh Knowledge Society’ and the Creativity Club Society Cooperate in Training on Robotics Programming

Abu-Ghazaleh Launches Professional Examination System and E-evaluation Service

AMMAN – HE Dr. Talal Abu-Ghazaleh, founder and chairman of the International Arab Society of Certified Accountants (IASCA), announced the launch of the professional examination system and the electronic evaluation service; both developed by Talal Abu-Ghazaleh E-Solutions Department at Talal Abu-Ghazaleh Global (TAG Global).

The new system enables companies and institutions to evaluate the performance of their employees for the purposes of promotion, job transfers, and training. The electronic evaluation system examines employees' professional knowledge, analyzes the results and provides the necessary recommendations. The system also allows the concerned organizations to conduct professional exams for their staffs, in addition to university students in Arabic and English.

The new system provides the following set of features:

- Enabling institutions to measure the performance of their staff

transparently at lower cost and with less effort.

- Providing and hosting a base of questions and evaluation forms and templates for clients.
- Analyzing the evaluation results and determining the training needs of both departments and employees.
- Conducting recruitment exams for new employees.
- Conducting professional exams for the institution's existing employees.

The International Arab Society of Certified Accountants (IASCA) was established as a non-profit professional accounting organization on January 12, 1984 in London - UK and was officially registered in Amman on February 24, 1994. IASCA aims to improve the science of accounting, auditing and other related subjects at the international level, as well as to maintain the professional independence of accountants, ensure their protection and apply professional supervision standards as means of upgrading the accountancy and auditing professions.

The International Arab Society of Certified Accountants (IASCA)

Member of TAG-Foundation

Professional examination and evaluation electronic system

The Society offers an electronic assessment service to public and private sector companies and institutions. This service allows companies to evaluate the performance of their employees in order to make appropriate decisions related to promotions, job transfers, training and enhancing skills, through the use of an online assessment system which examines job related and professional knowledge of employees. The system analyzes the results and makes the necessary recommendations.

It is important to note that the International Arab Society of Certified Accountants holds all of its professional examinations using the online examination system developed by the Department for Electronic Solutions at Talal Abu-Ghazaleh Global. This system was designed to be comprehensive and easy to use by students, whilst simultaneously being condensed/concise, thus reducing the amount of time, efforts and costs involved, at a time when digital transformation has become an urgent need to keep up with technological developments/advancements. The system includes a portal for sitting for exams, and another portal for correcting exam answers and electronically issuing exam results.

The Overall Objectives/Goals:

- Develop the institution's performance in order for it to reach its strategic objectives.
- Increase the institution's competitive advantages
- Enhance the performance and skills of employees
- Increase the level of job satisfaction

Targeted Groups:

- Employees working in accounting departments.
- Employees working in external auditing departments.
- Employees working in internal auditing and internal control departments.
- Employees working in financial management and financial control departments.
- Employees working in procurement and inventory departments.
- Employees working in the banking sector.
- Employees working in Human Resources and other related departments.

System features:

- Enables institutions to measure the performance of their employees transparently whilst minimizing costs and efforts involved in doing so.
- Offers and hosts a forum for questions and evaluations of clients.
- Analyzes evaluation results and determines the training needs of departments and employees.
- Holds exams for new employees to be appointed.
- Holds professional exams for existing employees at institutions.

System language:

The system makes it possible to hold exams and to conduct evaluations in Arabic and English.

‘Abu-Ghazaleh University College for Innovation’ Launches Remote Learning Platform for its Students

AMMAN – Talal Abu-Ghazaleh University College for Innovation (TAGUCI) announced the launch of the remote learning platform for its students to ensure the continuity of the education process in light of government protective closure decisions against coronavirus spread.

TAGUCI Dean, Dr. Muntaha bani Hani, stated that TAGUCI has previously prepared a special system for its students that has been used since the inception of the University College. She pointed out that TAGUCI Management has already begun implementing the decision out of its concern for the students’ health and safety; also in compliance with the official instructions. That is in addition

to the College commitment to provide specialized solutions that keep the educational process running without disruption around the clock, seven days a week.

Furthermore, TAGUCI platform is distinguished for its potential ability that allows chatting, viewing material and exams, video calling and interaction between the academic staff and the students, in addition to a number of other features.

These TAGUCI measures are designed to ensure the continuity of the educational process for all students, while at the same time comply with the precautionary measures that aim at containing the spread of coronavirus.

‘Abu-Ghazaleh Knowledge Society’ and the Creativity Club Society Cooperate in Training on Robotics Programming

AMMAN – Talal Abu-Ghazaleh Knowledge Society (TAG-KS) signed a cooperation agreement with the Creativity Club Society in Al-Karak governorate to hold training courses and consulting services related to robotics programming.

The agreement, signed by TAG-KS Executive Director Mr. Luay Abu Osbeh and the Creativity Club Society General Manager, Eng. Husam Al-Tarawneh, aims at providing specialized training courses and diplomas as well as building capacities of the youth in Al-Karak Governorate to stand out in a competitive labor market.

Abu Osbeh underlined the importance of the agreement which would serve local community by enhancing professional capabilities and prepare its members to compete in the labor market, pointing out that the Creativity Club is one of the distinguished entities in the region and the Middle East in the field of robotics programming which is widely and enthusiastically embraced by the youth.

For his part, Eng. Al-Tarawneh expressed his pride in collaborating with Talal Abu-Ghazaleh Global (TAG.Global), and thanked Dr. Talal Abu-Ghazaleh for his contributions in serving local community, civil institutions, refugee camps and associations in all governorates throughout the Kingdom particularly in building their members’ capacities.

The Talal Abu-Ghazaleh Knowledge Society (TAG-KS) is one of the Talal Abu-Ghazaleh Global initiatives that targets Arab youth to develop human resources, build capacity, and provide the latest tools and developments in information technology and communication fields. TAG-KS aims at qualifying a large number of local professionals enriching them with wide range of expertise to face labor market challenges.

The Creativity Club Society – Al-Karak established in 2006 as a non-profit institution, receives special support from HRH Crown Prince Hussein bin Abdullah II. It works on empowering the youth in Al-Karak, enhancing efficiency of the educational system, improving effectiveness of government initiatives targeting the youth in addition to strengthening the role of civil society institutions that serve the youth.
