Abu-Ghazaleh finalizes New Book on Smart Cities - "The Inevitable Digital Future"

'Abu-Ghazaleh for Technologies' Announces the Arrival of its Factory's Production Lines to Jordan

'Abu-Ghazaleh University College for Innovation' Concludes Executive Diploma in 'Artificial Intelligence and Data Science'

Abu-Ghazaleh finalizes New Book on Smart Cities - "The Inevitable Digital Future"

AMMAN - HE Dr. Talal Abu-Ghazaleh, founder and chairman of Talal Abu-Ghazaleh Global (TAG.Global), has finalized a new book on Smart Cities called "The Inevitable Digital Future". His Excellency enlisted the assistance of one of his senior IT experts, Mr. Shahid Halling, in helping develop the contents of the book in light of the role that technology can play in delivering sustainable urbanization.

Mr. Halling said, "This book comes at a critical time where governments across the globe are facing great challenges in delivering equitable services to their citizens. The recent Coronavirus (COVID) pandemic and the economic stagflation Dr. Abu-Ghazaleh has been instrumental in bringing to the forefront, are putting unprecedented strains on national resources and services. The only solution to achieve sustainable urbanization is for governments to adopt technology and become smart entities."

In the book, Dr. Abu-Ghazaleh discusses the technologies he sees as being essential for Smart Cities to come about and lessons that can be learnt from failed Smart City initiatives. The book provides a blueprint that can be used to develop holistic Smart Cities of the future. The book also discusses a range of supportive elements from governance to citizen awareness that are essential in developing successful Smart City implementations.

The book is concise and is written in clear language and that makes it ideal as a guide for decision makers of all levels on what they need to do to meet the challenges of the future.

The English version of the book is currently under print and shall be available by mid-November 2020, with the Arabic version soon to follow.

'Abu-Ghazaleh for Technologies' Announces the Arrival of its Factory's Production Lines to Jordan

AMMAN – Talal Abu-Ghazaleh Global (TAG.Global) announced the arrival of the production lines for the Talal Abu-Ghazaleh for Technologies (TAGTech) electronic and technological industries factory, which is under construction; the first to be designed and produced devices in Jordan and the Arab region.

TAG.Global has previously started the establishment of the first operational Arab technological factory at Madaba Industrial Estate to manufacture, produce and design laptops, tablets and smartphones which are currently being manufactured in China.

HE Dr. Talal Abu-Ghazaleh, founder and chairman of TAG.Global, stated that the factory is considered the first of its kind in Jordan and the Arab region, pointing out that TAGTech factory will be an added value to the Jordanian economic activities as its produces various electronic devices characterized by their high-specs and competitive and affordable prices for all.

Furthermore, Dr. Abu-Ghazaleh asserted that choosing Madaba to host TAGTech factory comes in a response to the vision of His Majesty King Abdullah II for developing the region. He further added that after a series of meetings with the concerned authorities including the Ministry of Industry Trade & Supply, the Jordan Industrial Estates Corporation (JIEC) and Jordan Investment Commission, the government officials and representatives offered all required facilities to establish the factory and to achieve the goals for which it was established.

Dr. Abu Ghazaleh also noted that TAGTech factory will create around 150 skilled jobs for Jordanians workers who will be also qualified and trained on this new industry and production lines in the Kingdom, stressing

that TAGTech will continue developing this industry to meet the requirements of all segments of the society.

TAGTech continues to expand its production operations by producing so far 15 electronic devices of TAGTech series including (TAGITOP-Multi, TAGITOP-Plus, TAGIUNI, TAGITOP-Pro and TAGITOP II) laptops and (TAG-DC, TAG TAB II, TAG-TAB KIDS) tablets and it has recently started producing a smartphone (TAG-Phone).

'Abu-Ghazaleh University College for Innovation' Concludes Executive Diploma in 'Artificial Intelligence and Data Science'

AMMAN - The Consultancy and Training Center at Talal Abu-Ghazaleh University College for Innovation (TAGUCI) has concluded the Executive Diploma in Artificial Intelligence (AI) and Data Science, the first of its kind at the Arab world level.

TAGUCI offered the 300-hour diploma for various specializations and sectors targeting different segments of the society including school and university students, employees and those interested in AI and Data Science.

During the course, participants were introduced to methods of analyzing, processing and exploring the future of Big Data and Data Cyberspace, to keep pace with the latest developments in science and technology.

Talal Abu-Ghazaleh University College for Innovation (TAGUCI) is a University

College specialized in applied business and information technology. It is an independent educational institution accredited by the Jordanian Ministry of Higher Education and the Accreditation and Quality Assurance Commission for Higher Education Institutions. TAGUCI focuses on providing the youth with the appropriate environment to become IT leaders, as well as empowering graduates to innovate and create knowledge and transform it into marketable products.
