‘Abu-Ghazaleh for Technologies’ Offers its Devices in Seven African Countries through WEBSS

During the 18th International Scientific Conference in Alexandria Abu-Ghazaleh: Historical Shifts Drive us Towards Digital Transformation

During an online Session of the Arab Business Forum in China Abu-Ghazaleh: TAG. Global turned Coronavirus Crisis into Massive Investment Opportunities in Technology

‘Abu-Ghazaleh for Technologies’ Offers its Devices in Seven African Countries through WEBSS

CAPE TOWN, South Africa – Talal Abu-Ghazaleh for Technologies (TAGTech), a member of Talal Abu-Ghazaleh Global (TAG.Global), signed a cooperation agreement with WEBSS, one of the largest distribution companies in South Africa, to distribute and facilitate the purchase of TAGTech electronic devices in South Africa.

According to the agreement, WEBSS will become the authorized agent for TAGTech smart electronic devices in seven African countries including (South Africa, Namibia, Botswana, Zimbabwe, Mozambique, Lesotho and Swaziland).

This cooperation comes as a part of TAGTech's efforts in marketing its electronic devices, including laptops and tablets, characterized by their high-specs and competitive and affordable prices- now in Africa.

According to the agreement, WEBSS will make available TAGTech devices throughout the seven African countries for those who wish to purchase modern electronic devices including TAGITOP-Multi, TAGITOP-Plus, TAGITOP-Uni and TAGITOP-Pro) laptops, in addition to (TAG-DC and TAG-TABII) tablets.

During the virtual signing ceremony, HE Dr. Talal Abu-Ghazaleh, founder and chairman of TAG.Global, announced that TAGTech

is launching the first Arab smartphone with high-specs and affordable prices (TAG-Phone) to become the latest edition to the smartphone international market, noting that TAGTech has started manufacturing laptops and tablets since 2018.

The new TAG-Phone device comes with 6.217inch HD screen, 6 GB RAM and 64 GB Storage and 8 MP Front Camera and 16 MP Rear Camera with Deputy Camera 0.3 MP with Flash LED.

TAG-Phone also comes with Dual Nano SIM card slots, in addition to OS Android 10.0 with Google Certification (GMS Approval) and fast Charging Port.

Dr. Abu-Ghazaleh added that TAGTech has recently announced the launch of the first Arab tablet for kids (TAG-TAB Kids), in accordance with the highest international standards at competitive prices being subsidized by Talal Abu-Ghazaleh Foundation (TAG-Foundation). The new TAG-TAB Kids is characterized by its 340g lightweight, 2GB RAM and 32 GB Storage in addition to 2 MP Front Camera and 8 MP Rear Camera and protection cover. It will be available in the markets next November.

During the 18th International Scientific Conference in Alexandria Abu-Ghazaleh: Historical Shifts Drive us Towards Digital Transformation

AMMAN – HE Dr. Talal Abu-Ghazaleh, founder and chairman of Talal Abu-Ghazaleh Global (TAG.Global) was virtually hosted by the 18th International Scientific Conference in Alexandria organized by the Faculty of Commerce in Alexandria University, to discuss ‘Digital Transformation’ with the participation of large group of professors and scientists.

During the conference, Dr. Abu-Ghazaleh criticized the backward state of digitalization in the Arab region that would bring them back to the Stone Age, suggesting rescue tools atop of which is continuous attempts to improve digitalization regardless of any existing obstacles.

He also indicated that we should embrace the Fourth Industrial Revolution or the so-called ‘Digital Revolution’, “since we are already on the threshold of a historical stage that is pushing us toward digitalization”. According to Dr. Abu-Ghazaleh teaching digitalization should start from primary and secondary education so that university students would be well prepared to graduate as creators and inventors; an approach currently implemented at Talal Abu-Ghazaleh University College for Innovation (TAGUCI) whose unique vision is based on graduating inventors.

Regarding other rescue methods of the lagging state of digitalization in the Arab

region, Dr. Abu-Ghazaleh believes that Arabs should fully understand that the world will indefinitely live with the ‘digital revolution’, taking into account that technology moves forward with or without us.

“For that reason, we need to educate children and guide them toward the useful science that is called the ‘Science of Modern Technology’ and provide whatever is needed to ensure their effective embracing of digitalization.

“Digital transformation is no longer a luxury; on the contrary, it has become an urgent need. Accordingly, we, at Talal Abu-Ghazaleh Global, provide consulting services in digital transformation through Talal Abu-Ghazaleh & Co. Consulting in all areas due to the fact that digitalization will invade the agricultural, medical, business and professional aspects of our life in the upcoming three years,” Dr. Abu-Ghazaleh concluded

During an online Session of the Arab Business Forum in China Abu-Ghazaleh: TAG.Global turned Coronavirus Crisis into Massive Investment Opportunities in Technology

AMMAN - HE Dr. Talal Abu-Ghazaleh, founder and chairman of Talal Abu-Ghazaleh Global (TAG.Global), affirmed that the Organization took advantage of Coronavirus (COVID-19) crisis in creating huge investment opportunities in technology by producing six series of technical devices by Talal Abu-Ghazaleh for Technologies (TAGTech).

During the online dialogue session organized by the Arab Business Forum (ABF) in China entitled ‘Economic Coexistence with and Post-COVID-19’, Dr. Abu-Ghazaleh said that TAGTech technological devices including tablets and laptops are designed and manufactured with high quality specifications and distinctive designs at competitive and affordable prices.

The meeting held in the presence of the Jordanian Ambassador to the People’s Republic of China, HE Mr. Hussam Al Hussein, and ABF Chairman Mr. Arafat Al-Harabsheh, in addition to a host of businesspersons in China. Al-Harabsheh opened by welcoming and thanking Dr. Abu-Ghazaleh for accepting the Forum’s invitation.

He also stated that the session aims to enable Arab businessmen in China to benefit from Dr. Abu-Ghazaleh’s long years of experience in the fields of business, economy and information technology (IT), noting that everyone faces one of the world’s most devastating economic crises.

Regarding the COVID-19, Dr. Abu-Ghazaleh said that the pandemic is still in its

early stages and will remain as part of our life for years, calling for taking advantage of this crisis to find and create investment opportunities. He also pointed out that the world is standing at the doorstep of a historic opportunity to turn to the inevitable digital learning, which became a necessity, in addition to implementing decisions relevant to transformation to digital government.

Furthermore, Dr. Abu-Ghazaleh announced that TAG.Global is in the process of establishing the ‘Chinese-Jordanian Technical University’, in partnership between Talal Abu-Ghazaleh University College for Innovation (TAGUCI) and one of the Chinese universities that is specialized in teaching Artificial Intelligence (AI), IT and Cybersecurity.

Commenting on cooperation with China, Dr. Abu-Ghazaleh stated that TAG.Global is always willing to cooperate with the Arab businessmen in China in all fields including the provision of economic consulting, trademark registration, in addition to cooperating in establishing factories to supply the Arab market with its needs, especially in industries that help fight COVID-19 pandemic.

During his participation, Dr. Abu-Ghazaleh stressed the importance of partnership between TAG.Global and the ABF in China in implementing the 'Belt and Road' initiative launched by the Chinese government in 201. He declared that a permanent headquarters for ABF will be soon inaugurated at Talal Abu-Ghazaleh Global- Chinese Visa Section (TAG-Visa) in Amman to provide consulting to businessmen, economists

and students who wish to do business or study in China.

In conclusion it has been agreed to establish a committee that includes members from ABF; namely Mr. Laith Al-Khateeb and Mr. Nader Shahrouri, and members from TAG.Global; Mr. Mamoun Abu Al Sebaa and Mr. Ramez Quneibi, to implement the terms of the agreement signed between both parties.
