## To provide digital transformation services in the Arab region ‘Abu-Ghazaleh Global’ and Falcons Soft Sign Cooperation Agreement

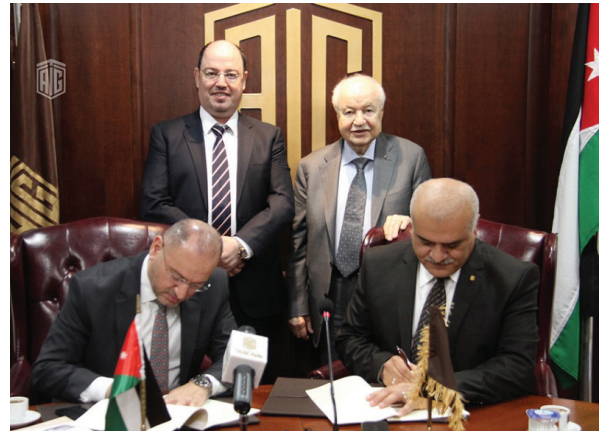

AMMAN – Talal Abu-Ghazaleh Global (TAG.Global) signed a cooperation agreement with Falcons Soft Company to become its partner in the development and implementation of Information and Communications Technology (ICT) systems that contribute to the implementation of digital transformation in the Arab region: governments and institutions, by simplifying work processes as well as by developing novel, world class systems.

The planned implementation will be conducted by Talal Abu-Ghazaleh E-Solutions (TAG E-Solutions); a member of TAG.Global firms, and the technical support team at Falcons Soft Company for the provision of digital transformation software solutions.

During the signing ceremony, HE Dr. Talal Abu-Ghazaleh, founder and chairman of TAG.Global, expressed his pride in collaborating with a Jordanian software associate, handling successful digital transformation projects in our Arab region, TAG.Global would have achieved its strategy in working together with national and Arab companies to ensure quality implementation and significant success in the digital transformation field that constitutes a leading model.” He affirmed.

Dr. Abu-Ghazaleh also commended visionary Arab leaders who urge institutions and citizens to simplify various transactions in order to achieve quality and control over commercial transactions by automation.

For his part, Eng. Haytham Rawajbeh, CEO of Falcons Soft, said that the ICT sector in the Kingdom is an important sector that proved its crucial role during the Coronavirus (COVID-19) pandemic

in controlling and containing the disease outbreak, by sustaining work processes of various sectors and facilitating the provision of services to citizens, bearing in mind that the information technology companies are considered a cornerstone in national security.

He further praised cooperation with TAG.Global that serves the interest of national economy and promotes an attractive business environment in the Kingdom, pointing to the role the ICT sector plays in education, remote work and communication between all segments of society, as well as the delivery of goods, basic commodities

and medicines through various e-platforms and related technologies.

Rawajbeh affirmed that the Jordanian companies operating in the ICT sector have achieved significant successes by attracting important foreign investments to the Kingdom and partnering with many global companies. Additionally, he referred to major companies opening regional offices in Jordan to benefit from the available expertise, especially the trained and qualified workforce.

It is worth mentioning that Falcons Soft has been providing IT solutions and custom-designed products and systems to businesses for nearly 20 years. Founded in 1997, it provides its clients with over 25 systems, managed by more than 120 engineers and programmers working

on innovative systems and solutions to facilitate and improve the work environment. It also provides around the clock technical support services by well-trained engineers in 20 Arab and foreign countries for over 10000 clients.

Talal Abu-Ghazaleh E-Solutions (TAG E-Solutions) works on developing programs to give its clients competitive value added services and activities by studying, analyzing, and evaluating current operational programs and solutions of institutions; and it subsequently, offers them the appropriate technology for their businesses. TAG E-Solutions has more than 70 experts specialized in innovation and development of e-programs using different programming tools and languages such as Oracle, JAVA, .net, and PHP.

## Abu-Ghazaleh Receives Representative of ICT Sector at Jordan Chamber of Commerce

AMMAN – HE Dr. Talal Abu-Ghazaleh, founder and chairman of Talal Abu-Ghazaleh Global (TAG.Global), received in his office the representative of the Information and Communications Technology (ICT) Sector at Jordan Chamber of Commerce, Eng. Haitham Al-Rawajbeh, to discuss several ICT topics including digital transformation, and e-learning.

During the meeting, Dr. Abu-Ghazaleh informed his guest that he had previously called for prompt formal actions to encourage technological and e-transformation due to the fact that the whole world today is embracing rapid technological changes.

Elaborating on one of TAG.Global's initiatives enhancing digital transformation, Dr. Abu-Ghazaleh said that TAG.Global has established the first university of its kind in the world that grants digital academic degrees based on graduates' inventions. He

pointed out that digital corporations would become the global wealth generators. As proof of that he reminded of the fact that the world's top 5-companies are digital technological businesses.

Regarding the importance of digital transformation to the Arab countries, Dr. Abu-Ghazaleh affirmed that TAG.Global strives to cooperate constantly with the League of the Arab States to implement the digital transformation project at the Arab-regional level to disseminate learning culture digitally.

For his part, Al-Rawajbeh noted that the digital transformation process in all fields whether in education, economy or others, has become an urgent need and an inevitable reality that should be addressed especially in light of the challenges and difficulties imposed by the Coronavirus (COVID-19) pandemic.

## Specialized in AI and cybersecurity defense technology ‘Abu-Ghazaleh Global’, a Strategic Partner in ‘2021 AIDTSEC’ Exhibition and Conference

AMMAN - The Special Operations Forces Exhibition (SOFEX Jordan) is organizing the first Artificial Intelligence Defense Technology and Cybersecurity Exhibition and Conference (AIDTSEC) to be held in Jordan, and the region, on the 27th and the 28th of October, 2021 at King Hussein Bin Talal Convention Center at the Dead Sea.

The Exhibition and Conference, which takes place biennially, was established to become the most significant AI conference in the region with the aim of bringing together the AI leading experts in Defense Technologies and Cybersecurity.

Talal Abu-Ghazaleh Global supports the AIDTSEC as a Strategic Success Partner in organizing and marketing. Accordingly TAG. Global will be marketing the Exhibition and Conference by inviting entities and individuals to participate and visit through its more than 100 offices worldwide, as well as by encouraging its partners and clients to take part in this significant event.

During the two-day event, state-of-art technologies in AI and robotics engineering fields will be displayed to help find vital solutions for day-to-day operations in the defense industry, digital transformation, infrastructure, big data, data analysis, cybersecurity, information privacy and other important topics related to artificial intelligence.

It should be noted that Talal Abu-Ghazaleh for Technology (TAGTech), a member of Talal Abu-Ghazaleh Global (TAG.Global) that is specialized in manufacturing and producing smart devices including laptops, tablets and smartphones, will have

a booth at AIDTSEC exhibition to display its latest technological devices designed and manufactured by its experts, reaching so far up to 15 devices in more than 50 locations worldwide.

AIDTSEC is a two-day engaging conference and exhibition that aims to become a platform for lead experts, innovators and startups in AI Defense Technology and Cybersecurity to exchange expertise, strategies and knowledge in the AI world. In addition, more than 500 participants are expected to take part from international investors, decision-makers and military officials as well as more than 65 official delegates from 34 countries.

To register in AIDTSEC exhibition and conference, please visit the website: <https://www.aidtsecjordan.com/>
