Saudi Authority for Intellectual Property Accepts Trademark Applications

RIYADH - As per the decision of the National Council of Ministers in Saudi Arabia, a new body for Intellectual Property protection has been established under the name “Saudi Authority for Intellectual Property (SAIP)” to regulate, promote and protect Intellectual Property Rights (IPRs) in Saudi Arabia.

SAIP is now in charge of all IP activities in Saudi Arabia, completing the work that has been done by the Ministry of Trade and Investment in the field of IP.

Furthermore, SAIP launched a portal related to IP services, where the public may register their IPRs electronically.

Implementation of Consensus Policy for the Protection of Red Cross & Red Crescent Identifiers

LOS ANGELES – The Internet Corporation for Assigned Names and Numbers (ICANN) announced that it has revised the Protection of International Governmental Organization (IGO) and International Non-Governmental Organization (INGO) Identifiers in all gTLDs Policy, to reflect an updated reserved names list for certain Red Cross and Red Crescent names at the second level of the Domain Name System (DNS).

This policy update is the implementation of the consensus policy developed by the Generic Names Supporting

Increase in Official IP related Fees in Turkey

ANKARA - The Turkish Patent and Trademark Office has announced that IP official fees have been increased in Turkey as from January 1, 2020.

As the satisfaction of our esteemed clients is our top priority, we keep our charges at minimum in Turkey despite the increase in the official fees.

Besides, the Turkish Patent and Trademark Office has launched a new online filing system to integrate all procedures under one filing system. The new Electronic Application System (EPATS) has strong infrastructure and security, allowing IPRs holders to more easily register their rights in the EPATS's central database.

For more information, please contact AGIP Turkey office at the following address:

Address: Tunus Cad. No. 15/4, 06680, Kavaklıdere, Ankara-Turkey

New E-filing for Designs in Denmark

COPENHAGEN - The Danish Patent and Trademark Office (DKPTO) announced in a press release that it has implemented a new design e-filing system, which went live on February 17, 2020.

Developed in cooperation with the EUIPO under ECP1 (European Cooperation Project), the new system is configured to process both standard and multiple design applications. The system includes tooltips with further information and the automatic numbering of designs and views, integration with DesignClass and coloured, validated Locarno classes and subclasses, and the automatic calculation of fees as users navigate their way through the e-filing process.

The new system also allows users to file validated applications in a digital format, and contains a simplified and updated architecture and technology stack, to simplify the IT administrative process.

With this application, the DKPTO continues to support the implementation of future IP law by leveraging a modern, digital services platform. The EUIPO and its stakeholders are working together on five major ECPs, whose main aim is to benefit users across the EU by providing modern, state-of-the-art tools and services for EU IP offices.

Upcoming Middle East DNS Forum Postponed

ISTANBUL – The Internet Corporation for Assigned Names and Numbers (ICANN) announced that its Middle East DNS Forum, scheduled for 24-25 March 2020, in Riyadh, Saudi Arabia, is being postponed. This decision was made in partnership with ICANN hosts, as a result of the COVID-19 outbreak, considered a public health emergency of international concern by the World Health Organization.

A new date will be determined in coordination with the event host, the Communications and Information Technology Commission (CITC).

ICANN thanks the CITC for its efforts to host this meeting. It appreciates their understanding and looks forward to returning to Riyadh in the future.

This decision comes one week after the ICANN Board of Directors announced that the ICANN67 Community Forum, which was scheduled for 7-12 March 2020 in Cancún, Mexico, will instead be held as a virtual conference with remote participation to ensure the health and safety of all attendees.
